—One of the most urgent environment problems in the world today is the shortage of clean water. Having clean drinking water is a basic human right. But acid rain, industrial pollution and garbage have made many sources of water undrinkable. Lakes and even entire seas have become large pools of poison. Lake Baikal in Russia is one of largest lake in the world. It contains a rich variety of animals and plants, including 1,300 rare species that do not exist anywhere else in the world. But they are being destroyed by the massive volumes of industrial pollutants which pour into the lake everyday. Even where law existed, the government did not have the power to enforce them. Most industries simply ignore the regulations. The Mediterranean Sea occupies 1% of the world's water surface. But it is the dumping ground for 50% of all marine pollution. Almost sixteen countries regularly throw industrial wastes a few miles off shore. Water is free to everyone. A few years ago people thought that the supply of clean water in the world was limitless. Today, many water supplies have been ruined by pollution and sewage. Clean water is now scarce, and we are at last beginning to respect this precious source. We should do something now.

30. What is the message to the readers?
 A. We should limit the clean water in the world.
 B. ~~We should do something protect our water resources.~~
 C. We should use a lot of clean water.
 D. We should encourage people to use safe water.

The Asian Games owes its origins to small Asian multi-sport competitions. The Far Eastern Championship Games were created to show unity and cooperation among three nations: Japan, the Philippines and China. The first games were held in Manila, the Philippines in 1931. Other Asian nations participated after it was organized.

After World War II, a number of Asian countries became independent. Many of the new independent Asian countries wanted to use a new type of competition where Asian dominance should not be shown by violence and should be strengthened by mutual understanding. In August 1948, during the 14th Olympic Games in London, Indian representative Guru Dutt Sondhi proposed to sports leaders of the Asian teams the idea of having discussions about holding the Asian Games. They agreed to form the Asian Athletic Federation. A preparatory committee was set up to draft the charter for the Asian amateur athletic federation. In February, 1949, the Asian athletic federation was formed and used the name Asian Games Federation. It was decided to hold the first Asian Games in 1951 in New Delhi the capital of India. They added that the Asian Games would be regularly held once every four years.

-The Taj Mahal , in India, is one of the most beautiful buildings in the world , built over 300 years ago by the Shah Jehan as tomb for his wife . Shah Jehan loved his wife very much . He wanted the tomb to be perfect , that's why he did not care about the time and money . Bearing this thought in mind , he found the finest workmen in Asia to work on the building. It took over seventeen thousand men over 20 years to complete it . In front of the main entrance to the building , there is a long narrow pool. If you look in this pool , you will see all the beauty of Taj Mahal in the reflection from the water .

Some people think the Taj Mahal is the most beautiful at sunset when the reflection of the building in the pool gleams like ruby. Others like it best at noon. Many think it is the most beautiful by moonlight. On nights when the moon is spending the night beside the pool. When morning comes and Taj Mahal turns from silver to gold in the early sunshine, they go away to return perhaps when the moon is fool again.
